

Midi-Flat

Miniature symmetrical Non-PC flat dripper

This miniature flat emitter allows efficient high speed manufacturing with a symmetrical dripper. Perfect for agriculture Midi-Flat features a turbulent flowpath and large filtration area for effective, efficient performance and excellent clogging resistance.

Advantages and Benefits

Economical

The Midi-Flat is a miniature flat dripper which is perfect for tapes and short-use dripline.

Durable and Clog-Resistant

This miniature emitter with turbulent flowpaths offers high emission uniformity and excellent resistance to clogging.

Excellent Uniformity

Dripper CV <3% ensures flow uniformity between drip outlets.

Superior Filtration

A large cross-section filter ensures that clean water enters the dripper.

Simple High Speed Manufacturing

The Midi-Flat is symmetrical, which allows easy high speed feeding in the production line.

Flow Rates Available

Midi-flat is available in 1.0L 1.6L 2.0L and 4.0L

Variable Pipe Diameter

Midi-Flat is suitable for insertion into 12mm - 22mm pipe up to 36 mil wall thickness.

Built-in Quality and Durability

Constructed with 100% premium virgin polyethylene and additives for resistance to UV degradation and damage caused from commonly used chemicals and fertilizers.
